

# Get Connected Stay Connected

## Your Health Care Team Has Recommended an Additional Medication

Unless otherwise directed by your provider, keep taking ursodiol (ursodeoxycholic acid) as prescribed.

**TAKE ACTION:** Follow up and stay connected with your health care provider and support team as scheduled.

## Interconnect is Here to Help You Start and Stay on Treatment

Interconnect offers financial assistance and support to help make your prescribed Intercept treatment more affordable.<sup>a</sup>

### FINANCIAL ASSISTANCE:

- **If you are currently commercially insured:** If you are eligible, we'll enroll you in a program that can help you get OCALIVA for as little as a \$0 co-pay.<sup>b</sup>
- **If you have Medicare or Medicaid:** Assistance may be available through independent foundations.<sup>c</sup>
- **If you have no or limited insurance for OCALIVA:** You may be able to have access to OCALIVA at no cost, if qualified.<sup>a,b,c</sup> Your Care Coordinator can help you find out if you're eligible.

**GETTING YOUR PRESCRIPTION:** Your medicine will be shipped directly from a **specialty pharmacy**.

**GETTING YOUR REFILLS ON TIME MATTERS** to help you stay on track with treatment—this is important for managing your condition.

### COMPLETE REQUIRED DOCUMENTATION:

- Patient Assistance Application (if needed)
- Patient Authorization Form (use the QR code to complete electronically)

**TAKE ACTION:** Start and continue to take OCALIVA as prescribed.

## Successfully Starting and Staying on Therapy Requires a Team— Introducing Interconnect Support Services

You will have a dedicated Interconnect Care Coordinator to help with financial assistance, personalized support, and education. Fellow patients enrolled in Interconnect report high satisfaction.

- Your health care provider and Interconnect Care Coordinator will help secure all the required paperwork to start OCALIVA.
- Your specialty pharmacy or Interconnect Care Coordinator will call you to discuss the details of your prescription and answer questions you may have.
- This call will come from Interconnect Support Services (1-800 number). It is crucial to take this call to receive and stay on track with treatment.

**TAKE ACTION:** Ensure your Patient Authorization Form is completed and returned. For more information, or to sign the eConsent, visit [www.interconnectsupport.com](http://www.interconnectsupport.com) or call 1-844-622-4278.

## Personalized Support and Resources

We're proud to offer a wide range of resources and educational content:

- Educational videos
- Ongoing events
- Downloadable resources

**TAKE ACTION:** Visit [www.ocaliva.com](http://www.ocaliva.com) to learn more, or call 1-833-508-9362 for free to connect with another person taking OCALIVA.

Please see next page for Indication and Important Safety Information about OCALIVA including serious side effects.

## What is OCALIVA?

OCALIVA is a prescription medicine used to treat primary biliary cholangitis (PBC) in combination with ursodeoxycholic acid (UDCA) in adults who have not responded well enough to UDCA, or alone for adults who cannot tolerate UDCA. It is not known if taking OCALIVA will improve your chance of survival or improve your symptoms of PBC. It is not known if OCALIVA is safe and effective in children.

## IMPORTANT SAFETY INFORMATION

### What is the most important information I should know about OCALIVA?

#### OCALIVA may cause serious side effects including:

#### **Worsening of liver problems or liver failure, in some cases leading to liver transplant or death, has happened in people with primary biliary cholangitis (PBC) with liver cirrhosis when taking OCALIVA.**

Before you start OCALIVA, and during your treatment with OCALIVA, your healthcare provider will do tests to check your liver. These tests will help your healthcare provider decide if it is safe for you to start taking OCALIVA and safe for you to continue taking OCALIVA.

**Tell your healthcare provider right away if you have any of the following symptoms of worsening liver problems during treatment with OCALIVA:**

- Swelling of your stomach-area from a build-up of fluid; yellowing of your skin or the whites of your eyes; black, tarry, or bloody stools; coughing up or vomiting blood, or your vomit looks like “coffee grounds”; mental changes such as confusion, sleepier than usual or harder to wake up, slurred speech, mood swings, or changes in personality.

**Tell your healthcare provider right away if you have any of the following symptoms during treatment with OCALIVA and they are severe or do not go away:**

- Stomach-area pain; nausea, vomiting, or diarrhea; loss of appetite or weight loss; new or worsening fatigue; weakness; fever and chills; light-headedness; less frequent urination

### Who should not take OCALIVA?

#### Do not take OCALIVA if you:

- have PBC with liver cirrhosis with symptoms such as fluid in the stomach-area or confusion (decompensated liver cirrhosis) or with abnormalities in certain tests that check your liver.
- have a complete blockage of the bile ducts in your liver or gallbladder.

### What are the possible side effects of OCALIVA?

#### OCALIVA may cause serious side effects, including:

- See “**What is the most important information I should know about OCALIVA?**”
- **Severe Itching (pruritus).** Itching is a common side effect and can sometimes become severe (intense itching or itching over much of your body). Severe itching can cause discomfort, problems sleeping, and problems doing daily activities and usually needs to be treated. Tell your healthcare provider if you get severe itching or if your itching gets worse.
- **Lower HDL-C** (“good” cholesterol). OCALIVA can lower high levels of HDL-C. Your healthcare provider will check your cholesterol levels during treatment with OCALIVA.

**The most common side effects of OCALIVA include:** tiredness; stomach pain and discomfort; rash; joint pain; mouth and throat pain; dizziness; constipation; swelling in your hands, ankles, or feet; fast or irregular heartbeat; fever; changes in how your thyroid gland works; dryness, irritation, redness, crusting or drainage of the skin (eczema).

These are not all the possible side effects of OCALIVA. Call your doctor for medical advice about side effects.

### What should I tell my healthcare provider before taking OCALIVA?

#### Before taking OCALIVA, tell your healthcare provider about all of your medical conditions, including if you:

- are pregnant or plan to become pregnant. It is not known if OCALIVA will harm your unborn baby.
- are breastfeeding or plan to breastfeed. It is not known if OCALIVA passes into your breastmilk. Talk with your healthcare provider about the best way to feed your baby if you take OCALIVA.

**Tell your healthcare provider about all the medicines you take,** including prescription and over-the-counter medicines, vitamins, and herbal supplements. OCALIVA can affect the way certain medicines work. Certain other medicines may affect the way OCALIVA works.

The risk information provided here is not complete. To learn more, please talk to your healthcare provider.

### Please see accompanying Full Prescribing Information and Medication Guide for OCALIVA.

Available by prescription only.

**To report negative side effects of OCALIVA, please contact Intercept Pharmaceuticals, Inc. at 1-844-782-ICPT or you may report to FDA at 1-800-FDA-1088 or [www.fda.gov/medwatch](http://www.fda.gov/medwatch).**
